

This is a unique link. Please do not share the document with anyone else.

1. Navigate to the following link:

<https://www.imgonline.com.ua/eng/impose-picture-on-another-picture.php>

2. Scroll down to find the first step where you have to upload the images:

1) Select 2 images in BMP, GIF, JPEG, PNG, TIFF format:

Choose file

No file chosen

Choose file

No file chosen

3. Select & upload the 1st image as the image on which you want to apply the frame.

4. Select & upload the 2nd image as the frame that you got after you made your submission.

5. Now scroll down and make sure that you have the following settings selected:

2) Image overlay settings:

Overlay type for 2nd image:

☒ Overlay 2nd image and make it transparent

☐ Overlay PNG, GIF, TIFF image with transparent background

Transparency of 2nd image:  % (from 0 to 100, 0="non-transparent", 100="fully transparent")  
(If selected «Overlay PNG, GIF, TIFF with transparent background» – this parameter will be ignored)

Automatic resizing of the 2nd (imposed) picture to the size of the 1st picture:

☐ enabled (selected by default)

☒ enabled, but on the contrary, 1st picture will be adjusted to the size of 2nd picture

☐ use manual resizing in % (this parameter can be adjusted below)

☐ disabled (off), do not change any sizes

Size of the 2nd (imposed) picture relative to  of the 1st picture:  %  
(Here can be specified value in percentage from 0.1 to 250 with accuracy up to tenths, [to enable this option](#), it is needed for parameter «Automatic size adjustment of the 2nd (imposed) picture...» to select «[use manual resizing in %](#)»)

Positioning of the 2nd image over the 1st:

Offset of the 2nd picture on the X-axis:  and Y-axis:  in  %  from the specified positioning  
(Here can be specified ineger value greater and less than zero in pixels or with accuracy to tenths in percentages)

3) Output image format

☒ JPEG  with quality  (from 1 to 100)

☐ PNG-24 (without compression, with transparency support)

Copy EXIF and other metadata of the 1st picture? ☐ Yes ☒ No

OK

Processing usually lasts for 0.5-30 seconds.

6. Click OK and as the new page loads up, just download your image using the the button given there. (You can view the image if you want as well)

### Images processing result

OK, processing completed successfully!

Size after processing: 497x474, 73.28 KB

Result file name: imgonline-com-ua-Piconpic-3mCvRyF5uCtc.jpg
